

Explorers: Who were the greatest explorers?

Moss Park Key Knowledge

1. **Explorers** travel to new places for different reasons. These include to discover new things, for fame, to help others and to find a fortune.
2. Ibn Battuta travelled for 30 years. He went further than anyone else at that time.
3. Some people think Captain Cook is a great explorer and that he 'discovered' Australia and New Zealand. However, he brought suffering to **indigenous** peoples.
4. Roald Amundsen reached the South Pole before Captain Robert Scott in 1911. Captain Scott's **journey** made him a **hero**.
5. Sunita Williams is an American female astronaut who was given many awards for her achievements.
6. These explorers are considered to be so **significant** that their achievements are remembered with **memorials** including statues, stamps, coins and street and place names.
